The MONADNOCK is regularly published twice a year in December and May, by the Clark University Geographical Society, Worcester, Massachusetts.

## Staff News

Dr. Samuel Van Valkenburg returned from Europe before the Spring semester. Still very much interested in the land use problem of the Common Market, he made a flying trip to Europe during the Spring recess to have conferences with some of the leaders of the program. At present he plans to teach Summer School courses in the geography of Europe and Problem Areas of the World, and drive to the West with Mrs. Van for the A.A.G. meetings, making a leisurely trip back east. Among his engagements are lectures for the State Geographical meetings (subdivisions of the New England Conference) at Colby College in Maine, Salem (Massachusetts) State Teachers College, and the State Teachers College at New Britain Connecticut. He is also invited to participate in the Social Science Institute at Michigan State University on August 11th.

Dr. Raymond E. Murphy serves during the current academic semester as visiting professor of economic geography at the University of California at Berkeley. While there, he has offered courses in the geography of primary production and in urban geography. He has continued to edit ECONOMIC GEOGRAPHY, working by mail from the West Coast with Mr. Burnham, the Cartographer, and Miss Patricia Sinnott who is handling the administrative details here at Clark. The Murphys will return to the campus in June.

Dr. Richard J. Lougee has laid out another busy summer for himself. After Commencement he is scheduled to report to Washington for two weeks of military duty, ending June 30th. Early in July he and his son

Gerry will head westward in the Rambler. Dr. Lougee will first make a study of the deposits attributed to pre-Wisconsin glaciations in Kentucky, Missouri, Kansas, and Iowa. Then he will travel through Yellowstone Park to the Willamette Valley of Oregon. From there he will proceed northward to the Puget Sound lowland and the Frazer River valley, examining these areas for evidences of their glacial and post-glacial history, as a complement to his long-term studies of New England and eastern Canada. Dr. Lougee will return to Worcester early in September, and will direct the annual Fall Field Camp later in the month, based near Hopewell, New Jersey.

Dr. Henry J. Warman plans to take his family camping after Commencement, to Nickerson State Park on Cape Cod. He plans to teach during the summer session here at Clark, offering courses in the Principles of Geography and Geography in Education. He will also lead a non-credit seminar on the role of geography in the social studies program. Dr. Warman will also spend some time this summer completing maps and exercises for the text for high schools which he has written with Dr. Van, to be published by Houghton Mifflin. As chairman of the planning committee of the National Council for Geographic Education, he will be working toward the Council's annual convention to be held over Thanksgiving vacation in New York City.

Mr. Guy H. Burnham has been busy the current semester editing maps for ECONOMIC GEOGRAPHY, teaching, and supervising honors work and thesis maps. He is preparing to

teach another summer of cartography for undergraduate and graduate students. Students come for this course not only from Clark but from several other colleges around the country where cartography is not offered, and the alumni of the course doubtless long remember those humid Worcester summers spent in the cool Salt Mine.

Dr. Erwin Raisz, Visiting Professor of Geography, taught a course in map and air photo interpretation at Clark during the Fall semester. This semester he avoided a bad winter in New England and has been teaching at the University of Florida. Dr. Raisz is also publishing a new landforms map of Mexico.

#### OBITUARY

Dr. Charles F. Brooks, Professor Emeritus of Meteorology in Harvard University and a former Clark instructor, died at his home on January 8th. Dr. Brooks received his Ph.D. at Harvard in 1914, taught at Radcliffe and Yale, and was with the United States Weather Bureau before coming to Clark in 1921 as Professor of Meteorology and Climatology. After leaving Clark in 1932 he returned to Harvard becoming director of the Blue Hill Observatory at Milton, Mass. Dr. Brooks had written widely in the fields of meteorology and climatology. Clark students have good cause to remember Dr. Brooks, who was consulted frequently by graduate students working in the field of climate even after he was no longer formally associated with the school.

#### Missing Alumni

We appreciate the good response to the list of names for whom we had no correct addresses, published in the December issue of THE MONADNOCK. Care to try locating some more?

Simon Baker  
Yu Lai Chan  
Ann Flynn  
Lester Estrin  
Alfonso Freile  
Mrs. John P. Galvin  
(Ernestine Hamberg)  
Margaret Joan Goodfellow  
James Haratani  
Althea Stautz Larzelere  
Maria Stella Guimares  
Yu Jung Huang  
Emmanuel Maier  
Eva E. Martens  
Eleanor Martin  
Mrs. Maude C. Martin  
George R. Means  
Mrs. Samuel Molinas  
(Helen Frick)  
Andrew Moreland  
Pearl Noland  
Mrs. Eric Patterson  
(Ethyl Simpkins)  
Kenneth Peepels

#### SIPLE WELCOMED AT GRADUATE SCHOOL

The Graduate School of Geography was visited by one of its outstanding alumni on March 18th when Dr. Paul A. Siple addressed the group on some of his experiences as head of the American scientific group in Antarctica for the start of the International Geophysical Year. Dr. Siple and his companion, Lt. (jg) John Tuck of Auburn, commander of the military team, were introduced to the group by Dr. Van

Valkenburg at a 7:30 A.M. breakfast in Libbey Library, which, Dr. Van noted, was the first such breakfast to be held by the CUGS. Dr. Siple then addressed the School on selected aspects of I.G.Y. research into the climate of Antarctica, and Lt. Tuck spoke briefly on the problem of locating the South Pole. While at the school, Dr. Siple was surprised to learn that he had been awarded the Patrons Medal of the Royal Geographical Society for his work in the Antarctic.

#### INTRODUCING

Three new instructors have been made welcome at the Graduate School of Geography this year. Dr. David Miller is head of the Environmental Analysis Branch of the Army Quartermaster Research and Engineering Center at Natick, Mass. He received his bachelors degree and his M.A. from U.C.L.A. and his Ph.D. degree from the University of California at Berkeley. Dr. Miller is widely known for his work in snow hydrology. He has been meeting graduate students one afternoon a week, offering a course on the geographical aspects of hydrology.

Also coming one day a week from Natick is Dr. Robert Anstey, who received his doctorate last June from the University of Maryland. Dr. Anstey is conducting the seminar in land utilization and directing student research in that field. Last Fall he delivered a paper on land use in southern Japan based on some of the research for his dissertation, to the annual conference of the New England-St. Lawrence Valley Geographical Association in Boston.

Professor Robert C. Estall of the London School of Economics is Visiting Professor of Economic

Geography for this semester, replacing Dr. Raymond E. Murphy. He is offering a graduate course in economic geography with special attention to industrial location and the problems of underdeveloped areas, and a course in the geography of the British Isles. Mr. Estall has been interested in the geography of power, and an article by him, "Some Problems of Power in the United Kingdom", appears in the January issue of ECONOMIC GEOGRAPHY. He is a graduate of the London School and has worked there with Dr. L. Dudley Stamp.

#### EDITORIAL

The Monadnock is becoming big business. The last issue was distributed to more than 550 people - alumni in this country and abroad, distinguished professors of geography in other schools, and recipients from the Clark University Library to a book seller in Scandinavia whose request we had difficulty interpreting. We even sent a copy to Antarctica, and assume it arrived since the Post Office has not returned it. This bigness brings about big headaches, too. There is the big problem of hand-addressing mailing envelopes three times a year, and of trying to keep our address files up to date. There is an even bigger problem of printing costs, which have accelerated so wildly within the past few years as to involve the magazine with large potential and actual deficits. With contributions at the Thanksgiving vacation still somewhat less than half the total needed to pay for two issues of the magazine, some hard looks were taken at THE MONADNOCK, and out of the several alternatives the most expedient was selected, that of abandoning the expensive letter-press process in

favor of the economies of photo-offset.

As of this writing, the reduction in costs, plus the additional contributions trickling in since November will permit a balanced set of books at the end of the year. We are happy in two ways at this, one because our New England conscience is appeased by not living beyond our means, and the other because we are able to keep sending the magazine out to all our members. We know that our lists contain many who are retired on small incomes, who have been ill, who have new expenses such as babies and who consequently cannot contribute when the newsletter comes around in the Fall. We have many foreign alumni who cannot contribute because of currency restrictions or other reasons, (although one enterprising alumnus managed to persuade a Yank to part with the dollar he was keeping "for sentimental reasons" in exchange for sterling!) We have many friends and honorary members of the group who are not solicited for funds. Yet we do not wish to lose track of these people or to have them miss the news of activities here at Clark, and in consequence are the more appreciative of the alumni at the height of their earning powers who are able to and do contribute more than their share of the costs to keep the publication in wide circulation. We wish that it were possible to send out individual acknowledgements, but time and expense preclude other than a mass "Thank you". And we urge, on behalf of our successor that when next Fall arrives with its accompanying newsletter, that all of our alumni who are in a position to do so will continue their financial support of the magazine.

W.A.K.

#### ALUMNI ACTIVITIES

Sherman R. Abrahamson (M.A. '48, Ph.D. '49) is Consultant to the United States Government and Professorial Lecturer, The George Washington University.

Harold B. Addicott (M.A. '28) is Chairman of the Geography Department, Minnesota State College at Moorhead. He conducted a 5,000 mile field trip to Florida and Cuba in summer session 1957, and plans to conduct a similar trip in 1958.

Richard F. Albert ('55-'57) is Instructor in Economics and Economic Geography at Bryant College, Pawtucket, R.I. His wife, Rebecca N. Alberg ('55-'57) is a part-time cartographer, and has worked on maps for Dr. Jean Gottman's Megalopolis project.

Lewis M. Alexander (M.A. '48, Ph.D. '49) is Associate Professor of Geography, Harpur College of the State University of New York, author of World Political Patterns (Rand McNally, 1957) and chapters in World Political Geography, G.W. Pearcy ed., (Crowell, 1957) He was Chairman of the New York-Ontario Division of the A.A.G., 1956-57, and presented a paper "Conflicting Claims to Sovereignty Over Sea Areas" at the Cincinnati A.A.G. meetings.

Agnes M. Allen (M.A. '34, Ph.D. '37) is Head of the Science Department at Arizona State College at Flagstaff. She has directed a Science Institute for High School science and mathematics teachers in cooperation with the National Science Foundation. Dr. Allen was on sabbatical leave in the Fall of 1957 and visited 15 countries in a four and a half month World tour.

Paul B. Andrew (M.A. '22) lives in Cayucos, California, and is currently chairman of the County Board of Supervisors, San Luis Obispo County.

Rollin S. Atwood (M.A. '25, Ph.D. '28) is Director for Latin America, International Cooperation Administration. He is active in making more effective the Technical Cooperation and Economic Aid programs of the U.S. in 26 Latin American countries. His daughter Patricia (Mrs. J.W. Millard, Jr.) is living in Schenectady, N.Y., and his daughter Letitia is attending Holton Arms School, Washington, D.C.

John P. Augelli (B.A. '43) is Associate Professor of Geography, University of Maryland, doing research for the State Department, and this year publishing two articles on foreign colonisation in Brazil.

Carleton P. Barnes (Ph.D. '29) is Research Coordinator for the Department of Agriculture. He is chairman of the Committee on a National Atlas of the U.S. of the National Research Council, and a member of the Commission on National Atlases of the I.G.U. His article, "Soil Management Regions", appeared in the 1957 Yearbook of Agriculture.

George Beishlag (M.A. '37) is Professor of Geography, State Teachers College, Towson, Maryland.

Nels A. Bengtson (Ph.D. '27) is Professor of Geography and Dean Emeritus of the Junior Division, University of Nebraska. He is senior author (with William Van Royen) of Fundamentals of Economic Geography, now in the fourth edition, and continues his research in economic geography.

Mildred Berman (M.A. '50) is In-

structor in Geography, Massachusetts State Teachers College, Salem. Miss Berman recently travelled to Mexico and the Greater Antilles.

Malcolm H. Bissell ('27-'28) is retired, living in Calistoga, California. He underwent back surgery last fall.

Clyde J. Bollinger ('25-'26, '29-'30) is Associate Professor of Geography at the University of Oklahoma. He has in press Planetary Climatology, an Introduction to Cycles and Forecasting. He is planning to correlate sun-tide indices on the University's new I.B.M. 650.

Adelbert K. Botts (M.A. '31, Ph.D. '34) is Professor and Head, Department of Geography, New Jersey State Teachers College, Trenton. He is active in research on New Jersey and in local planning, and was elected Mayor of Pennington, N.J., November 5th. Dr. Botts was also elected First Vice-President of the National Council for Geographic Education at St. Louis, late in November.

Phyllis R. Boucher (M.A. '55) is a teacher in Plymouth, Mass.

J. Herbert Burgy (Ph.D. '30) is Professor and head of the Geology-Geography department at Bradley University. He will teach economic geography at the University of Alberta for the summer term, 1958.

Merideth F. Burrill (M.A. '26, Ph.D. '30) is Director, The Office of Geography, U.S. Department of the Interior and Executive Secretary, the Board of Geographic Names. Dr. Burrill has lectured within the past year at the University of Illinois on the applications of geography in non-academic pursuits, at Dartmouth

Henry L. Buzzard (M.A.'49) is a cataloger in the Book Section of the Library of the U.S. Army Map Service. He announces the birth of a son, February 14, 1957.

Robert G. Buzzard (Ph.D. '25) has become President Emeritus of Eastern Illinois State University, and is now indulging his love of the teaching of geography at the Southern Illinois State University under Floyd Cunningham.

Norman Carls (Ph.D. '35) is Professor of Geography at the University of Pittsburgh, and co-author (with Marjory D. Howarth) of Our United States in a World of Neighbors (Winston, 1958), a junior high school text.

Mary C. Caruso (M.A.'51) is a teacher in the Roslyn, New York public schools, and earned her Ed.D. at Teachers College, Columbia, in March 1957. She plans to publish her doctoral project, An Ocean Geography for Children, and is revising with G.T. Renner, Jr., a high school geography in manuscript of Dr. G.T. Renner, Sr. Dr. Caruso traveled in the U.S. and Mexico the summer of 1957 and plans to travel in Central Europe in the summer of 1958.

Margaret S. Chew ('36-'37, '51-'52) is Associate Professor and Chairman, Department of Geography, Wisconsin State College at LaCrosse. She is currently studying urban service areas of the LaCrosse Tri-state area.

George S. Corfield (M.A.'31) is Associate Professor and Chairman, Department of Geography, Nebraska Wesleyan University. He traveled in 7 European countries in the summer of 1957. He was elected a member of the Executive board of the National Council for Geographic Education at St. Louis in November.

Lt. Catherine E. Cox, U.S.N. (M.A.'42) is assistant communications officer, U.S. Naval Air Missile Test Center, Point Mugu, California. She has traveled in Canada and the Western United States, and is a member of the Sierra Club of California.

Clark N. Crain (Ph.D. '51) is Chairman of the Department of Geography at the University of Denver. He has traveled in Hawaii, the Philippines, Taiwan, Okinawa, and Japan, during the summer of 1957 doing field research and consulting work. He attended the Pacific regional meeting in Japan of the I.G.U. Dr. Crain is currently preparing papers on rock-lines and artificial terracing.

Harold F. Creveling (Ph.D. '51) is Professor and Chairman of the newly independent Department of Geography, East Stroudsburg State Teachers College, Pennsylvania. The new department is expanding its offerings in systematic geography. Dr. Creveling traveled through the Midwest and Southwest after summer school in 1957.

Floyd F. Cunningham (M.A. '28, Ph.D. '30) is chairman of the Department of Geography, Southern Illinois University at Carbondale. He will conduct an around-the-world geography course this summer.

Richard L. Day (M.A.'50) is Instructor in Geography, University of Florida, currently working on his doctoral dissertation for the University of Illinois, titled Freight Traffic Patterns of East St. Louis, Illinois.

Veva K. Dean (Ph.D. '49) is Professor of Geography at State Teachers College at Fitchburg, Mass. She enjoyed skin-diving and underwater photography last summer in

Florida.

George F. Deasy (Ph.D.'48) is Professor of Geography at the Pennsylvania State University. He has published articles on the Pennsylvania Coal Industry in Economic Geography, (Oct., 1957), and in Mineral Industries, has a textbook to be published this year (Lippincott) and is working on a mineral atlas of Pennsylvania.

Sigismond deR Diettrich (Ph.D.'31) is Professor and Chairman of the Department of Geography at the University of Florida, and has published chapters in World Political Geography, 2nd ed. (Pearcy et. al) and World Geography (Freeman and Morris) He is currently working on the economic geography of the Baxada Flaminia in the state of Rio de Janeiro and on the Atlas of Florida. His daughter Rosemary was married in September to Pvt. Charles E. Leedham. For the summer of 1958 he plans to travel, teach, and attend the A.A.G. meetings in Los Angeles.

John E. Dornbach ('50-'52) is Cartographer in the Directorate of Operations of the Aeronautical Chart and Information Center, Saint Louis. He teaches geography in evening courses at Washington University, St. Louis, and the Alton center of Southern Illinois University. He was recently appointed one of the Air Force members on the committee for a National Atlas of the United States.

Sidney E. Ekblaw (Ph.D. '34) is Professor of Geography and Chairman of the Geology-Geography department at the University of Kansas City. He was Visiting Professor at Northwestern University for the 1957 Summer School, and read a paper, "Some Aspects of Brazilian Iron and Steel Industry" before the

National Council for Geographic Education in November. He has published, with Dr. Donald Mulherne, a high school geography text, Economic and Social Geography (Gregg Division of McGraw-Hill). His son Keith is a sophomore at Augustana College.

Francis E. Elliott (Ph.D. '52) is Professor and Chairman of the Department of Geography at Butler University, and currently studying the effects of climate on infrared radiation. He expects to spend the summer at Woods Hole Oceanographic Institution, doing research on the regional geography of the oceans.

Van H. English (Ph.D. '42) is Professor of Geography at Dartmouth College, Hanover, N.H.

Bart J. Epstein (Ph.D. '56) is a real estate assistant with Stop and Shop, Inc. He published with Howard L. Green an article entitled "Store Location Analysis" in Marketing in Action (National Industrial Conference Board).

Franklin C. Erickson (A.B.'28, M.A.'30, Ph.D. '35) is Professor and Chairman, Department of Geography, Boston University. He has recently published articles on the Arctic Slope of Alaska.

Richard B. Erickson and Marcia E. Davidson ('56-'57) were married in Milford, Massachusetts, on February 2, 1958. Mr. Erickson is with the planning staff of Cape May County, New Jersey.

Wilma B. Fairchild (M.A.'37) is Editor of The Geographical Review and chairman of the Publications Committee of the A.A.G. She also serves on the A.A.G. Council and Executive Committee and the Fellowship Committee of the Society of

Women Geographers. She writes "Everybody else's research keeps me busy".

Bradley Fisk, Jr. (M.A.'51) is instilling geography and geology into high school students at the Park School in Buffalo, New York. He traveled in the Caribbean during the summer of 1957, studying water resources on various islands.

Edwin J. Foscue (Ph.D. '31) is Professor and Chairman, Department of Geography, Southern Methodist University. He has published articles on "The Ports of Texas and Their Hinterlands" in Tijdschrift Voor Economische En Sociale Geografie, January '57, and "The Industrial Port of Corpus Christi" in Proceedings of the XVII International Geographical Congress, 1957. He also published a British Empire Edition of Regional Geography of Anglo-America. Last summer he and Mrs. Foscue made a trip around the world.

Otis W. Freeman (Ph.D. '29) is Professor of Geography at Indiana (Pennsylvania) State Teachers College. He has published The Resources of Washington, (Seattle, 1957) and (with John W. Morris) edited World Geography (McGraw-Hill, 1958). He plans to retire in June and live in Seattle.

Mrs. Clement E. Garrity (M.A.'34) is at home at 31 Chestnut St., Worcester.

Howard L. Green (A.B. '47, M.A. '49) is Researcher of Store Research and Development, Montgomery Ward and Company in Chicago. In October he was elected President of the New England-St. Lawrence Valley Geographical Society, which he resigned to move to the Midwest.

Andreas Grotewold (M.A.'51) is teaching in the Department of Geography, the University of Missouri.

Edna M. Gueffroy (M.A. '27) is Professor of Geography at Illinois State Normal University.

J.B. Guernsey (Ph.D. '41) lives at 9707 Parkwood Drive. Bethesda 14, Md.

Eleanor E. Hanlon (Ph.D. '53) is Assistant Professor of Geography at Syracuse University, directed the first "Watersheds Institute" of its kind in August, 1957 and plans another in July, 1958 on "The Region and the Small Watershed". She plans to publish the proceedings of the first conference in Spring, 1958. She also is compiling maps and writing explanatory texts for the Atlas of New York State, to be published in the Fall of 1958.

Andrew D. Hastings, Jr. ('52-'54) is physical geographer for the Arctic and Mountain section at the Quartermaster Research and Engineering Center at Natick, and is studying at Clark two days a week. He read a paper, "Climatic Analogs of Fort Greely and Fort Churchill" before the 8th Alaskan Science conference in the Summer of 1957. Mr. Hastings is currently working on a regional study of the Southeast Greenland littoral and editing research for publication in Quartermaster technical reports, including the first known windchill map of the entire Northern Hemisphere.

George E. Harding ('31) is Chairman of the Department of Geography, Science, and Mathematics at the California, Pa., State Teachers College. He plans to retire in May and travel to Europe this summer with Mrs. Harding, after which he expects to be engaged in tour work. He has recently revised a text in college geography.

Dorothea Burton Hawley (M.A.'47, Ph.D. '49) is Air Intelligence Specialist, U.S.A.F.- A.F.C.I.N., in Washington, D.C.

Harriett Lee Hirst (M.A.'28) is chairman of the Science Department at the Brearly School in New York. Last year she returned from a sabbatical in the deep South, travelling North with the Spring. She plans to spend the Summer in Europe.

Margery D. Howarth (M.A.'34) is Supervisory Geography, Engineer Strategic Intelligence Division, Army Map Service. With Worman Carls she is publishing The United States in a World of Neighbors (Winston). She will visit relatives in England this summer.

George F. Howe (M.A.'24) is Associate Professor of Geography, Teachers College of Connecticut at New Britain. A new full-time geographer has been recently added to the staff of his department. In his spare time, Prof. Howe has been wielding hammer and saw on his summer cottage.

George M. Howe (Ph.D. '56) is research meteorologist for the Travelers Weather Service at Hartford, Connecticut. In addition to his daily forecasting for New England's weather, he presented a paper, "Climatic Regions Delimited by Climatic Criteria" at the Cincinnati meetings of the A.A.G.

Joseph B. Hoyt (Ph.D. '54) is Associate Professor of the Social Sciences at the State Teachers College of Connecticut at New Haven. He plans publication of an article, "The Cold Summer of 1816" and is developing geographical material, including slides, maps, and printed matter, on the geography of Conn-

ecticut for use in the state's public school system.

Bert Hudgins (Ph.D. '30) is Professor Emeritus of Geography at Wayne State University in Detroit. He is revising his book Michigan: Geographic Backgrounds (Edwards Bros., Ann Arbor, Lithoprint). He plans in the future to travel, write, and rest.

Gilbert Hunter ('54-55, '56-57) is Assistant in Geography at the Chicago undergraduate division of the University of Illinois, and also completing his thesis. Finding teaching an enjoyable activity, he may apply for an overseas position.

Harry K. Hutter (M.A.'30) is Acting Chairman of the Department of Geography and Geology at The University of Toledo. He suffered a heart attack August 1st, and Mrs. Hutter taught his first semester classes. Since September, 1956, he has been Foreign Student advisor at the University.

R.G. Illingworth is Principal of the Cabot High School, Cabot, Vermont.

Col. Albert H. Jackman (Ph.D.'53) is Deputy to the Chief, Research and Development Office of the Quartermaster General in Washington, D.C.

Preston E. James (Ph.D.'23) is Professor of Geography and Chairman of the Department at Syracuse University. He spent 1956-57 as a Fulbright Exchange Professor at the University of Edinburgh, and will be at the University of Washington for the summer of 1958. He is editor of the 1959 Yearbook of the National Council for the Social Studies, and preparing a ninth grade geography text for Macmillan. He is

also working with the Glens Falls School System in an experimental program for improving the teaching of the social studies, under the aegis of the NCSS.

Katherine C. Johnson is a retired teacher in the New York City school system.

William F. Kane, Jr., (M.A.'54) is a City Planner with Technical Planning Associates in New Haven, Conn. He was married to Sylvia M. Jambrek on July 6, 1957.

Channing Rwen Kao ('46) is Associate Planner, Baltimore County Office of Planning, Md. He is currently studying the importance of the elements of geography in regional planning. He was married August 24th, 1957.

Marguerite Plants Keinard (M.A.'48) is a teacher of Social Studies in Malvern, Pa. She has recently travelled in California and the Northwest, Florida, and the Gaspe Peninsula. She has been building a geographic slide collection, with emphasis on physiography.

Frank and Marylin Kelland (M.A.'54) are teaching in the public school system of St. Louis, Missouri. They published a joint article on geographic slide-taking in the Journal of Geography (April, 1957). Both plan to enroll at the University of Wisconsin in September, 1958, in the doctoral program in geography.

Lois R. Kaller (M.A.'29) is retired, living at 3232 East Fairfax Rd., Cleveland Heights, Ohio.

Edward S. Kersch ('54-'56) is in Hq. Co., U.S. Army South Area at Fort Meyer, Va. He is also completing his M.A. thesis, and hopes

to enroll for Ph.D. work in the fall.

Clarence E. Koeppel, (M.A.'27, Ph.D.'29) is retired. He will publish, with George DeLong, a college text, Weather and Climate (McGraw-Hill) in 1958.

Huey Louis Kostanick (M.A.'42, Ph.D.'48) is Associate Professor of Geography at the University of California, Los Angeles. He has been active in research and publication, and is chairman of the Local Arrangements committee of the A.A.G. convention August 22-28th. His wife, Celeste Budd Kostanick (M.A.'41) is Assistant Professor of Geography at Pierce Junior College, Woodland Hills. They have a two year old son, Christopher.

Oliver H. Laine (Ph.D.'53) is Dean of the Catonsville Community College in Catonsville, Maryland, which to organize he resigned in June, 1957 from the State Teachers College at Towson. He reports that geography is one of 15 subjects offered and that it is one of the more popular courses.

George Langdon (Ph.D.'52) is Professor of Geography at the State Teachers College in West Chester, Pennsylvania. He is currently Vice President of the Pennsylvania Council of Geography Teachers, and producing a filmstrip series on Pennsylvania geography. His son, John Ernest, was born on November 21, 1956.

Jim Lee ('40-'41) is directing research for the Directorate of Targets, U.S. Air Force. He studied the landforms of Bermuda by the bicycle method during a two week stay there in the Fall. He reminds us that "You can Kid Kostanick but you can't Josh Lee".

Minnie E. Lemaire (M.A.'32, Ph.D.'35) is Associate Professor and Chairman, Department of Geography, Mt. Holyoke College in South Hadley, Mass. She published an article, "A Sequential Study of Weather and Climate" in Vol. 56, No. 6 of the Journal of Geography, 1957.

Urban J. Linehan (M.A.'46, Ph.D.'55) has published "Tornado Deaths in the United States", U.S. Weather Bureau Technical Paper No. 30, March, 1957.

Dana A. Little (M.A.'51, '55-56) is planning associate for the Department of Economic Development, Augusta, Maine.

Trevor Lloyd (Ph.D.'40) is Professor of Geography, Dartmouth College and currently President of the Canadian Association of Geographers. He is continuing his studies of resource development in Scandinavia. During a sabbatical leave from February to September, 1957, Dr. Lloyd did field work, lectured, and visited schools of geography in the Atlantic provinces of Canada, the British Isles, Scandinavia, and Eastern Europe, including Praha, Budapest, and other universities behind the Iron Curtain. He spent four weeks in the U.S.S.R., visiting Leningrad, Moscow, Kharkov, Rostov, Stalingrad, Tashkent, and Alma Ata, and lecturing at University departments and branches of the Academy of Sciences.

Richard A. and E. Miriam Lockhart (M.A.'57) were married September 14th, 1957. Richard is an urban planner with I. Candeb and Associates of Newark, N.J., and Miriam is housewifing.

Richard F. Logan (AB'36, M.A.'37) is Associate Professor of Geography

at the University of California at Los Angeles. He spent the academic year 1956-57 on sabbatical leave studying the deserts of Southwest Africa, and is currently writing the results of the same.

Harriett R. Long (M.A.'41, Ph.D.'55) is Professor of Geography at the State Teachers College, Edinboro, Pennsylvania.

Wallace R. McConnell (Ph.E.'25) is Professor Emeritus of Geography at the University of Redlands, California. 1958 sees the publication of revised editions of his Geography of American Peoples and Geography of World Peoples.

James E. McCormick is Director of Planning for Antioch, California. He was married on August 17th, 1957. He is currently doing research on his thesis and for the city Master Plan development.

Shannon McCune (Ph.D.'39) is Provost of the University of Massachusetts at Amherst. He was chairman of the American delegation to the regional meetings of the I.G.U. in Japan in August and September, 1957, and lectured in Japan and Korea under Department of State auspices in September.

Neva McDavitt (M.A.'29) is Assistant Professor of Geography at Illinois State Normal University, Normal, Illinois.

Mrs. Robert McIntosh (B.Ed.'31) is a housewife, at 403 West Pine Street, Rome, New York

Wallace E. McIntyre (Ph.D.'51) is Associate Professor of Geography at the Illinois State Normal University at Normal Illinois. He published "Canalization of the Moselle"

Frederick S. Merriam (M.A. '46) is Divisional Manager for Waddell and Reed, Inc., New York.

James A. Minogue (M.A. '36) is N.I.S. Coordinator, Department of the Army, appointed in June, 1957. When he can find the time away from four daughters and naval reserve activities he enjoys hunting on the Blue Ridge.

Wojciech Monkiewicz (M.A. '51) is a geographer for the Army Map Service, Brooks Lane, District of Columbia.

Paul C. Morrison (Ph.D. '42) is Professor of Geography, Michigan State University at East Lansing, Michigan. He reports that Dr. Dieter Brunnschweiler, former instructor at Clark and Zurich, has joined the staff there as Assistant Professor. Dr. Morrison has published "Notes on the Regional Geography of Costa Rica" in Journal of Geography (Tokyo), Vol. 65, No. 2, 1956 and "Aspects of the Urban Geography of Turrialba, Costa Rica" Ochanomizu University Studies in Art and Culture, January, 1957, Tokyo, Japan. He was forced to lay aside temporarily his research by an illness last May.

Richard E. Murphy (Ph.D. '57) is Assistant Professor of Geography, The George Washington University, Washington, D.C. and acting Executive Officer of the Department in the absence of Robert D. Campbell. Dr. Murphy was co-author of "Concept of a Logistics System" in the Naval Research Logistics Quarterly, June, 1957.

Salvatore J. Natoli (M.A. '57) is Assistant Professor of Geography at

Mansfield (Pa.) State Teachers College, appointed September, 1957. He is working on languages and hopes to get his Ph.D. by 1960.

Herman L. Nelson (Ph.D. '54) is Associate Professor in Earth Science, Iowa State Teachers College in Cedar Falls. He has recently completed a series of six filmstrips, entitled Iowa: Land and People.

Norton Nichols, Jr. (M.A. '50) is Assistant to the Superintendent, Antelope Valley Joint Union High District, Lancaster, California. In this position, he deals with state aid and the building program for the district. His second child, Janet Lyn, was born June 10th, 1957. He is working toward a doctorate in educational administration at the University of California at Los Angeles.

Anne Kennedy O'Brien (M.A. '35) lives at 123 Monadnock Road, Worcester, Mass.

Bruce C. Ogilvie (M.A. '49, Ph.D. '56) is an analyst with Larry Smith and Co., Real Estate Consultants in Seattle, Washington, where he is doing research for private uses. He resigned in 1957 from Chico State College. Mrs. Ogilvie is now librarian of the Geography Department of the University of Washington and working on a graduate degree in Library Science.

Howard L. Ohman (A.B. '46, M.A. '48) is a physical geographer for the Department of the Army at Quartermaster Research and Engineering Center, Natick, Mass.

Ralph E. Olson (Ph.D. '46) is Professor of Geography and Chairman

of the Department at the University of Oklahoma at Norman. He is also Vice-President of the University of Oklahoma Research Institute and geography editor of the Southwestern Social Science Quarterly.

Leonard O. Packard (M.A. '24) is Professor Emeritus of Geography, Massachusetts State Teachers College at Boston.

Harry C. Parker (M.A. '38) is a museum specialist in the National Park Service Museum Laboratory, Washington, D.C. He has fully recovered from a coronary occlusion in the summer of 1956. He writes that he would be pleased to see any Clark people at the Lab, Temporary Building "S", Jefferson Drive between 6th and 7th Streets, S.W.

John W. Pawling (M.A. '56) is a teacher in the Elkins Park Junior High School in Philadelphia, Pa.

Robert F. Perry, Jr. (Ph.D. '57) has resigned from Miami University, Oxford, Ohio, to join the Department of Earth Science at the Massachusetts State Teachers College at Bridgewater, Mass. He continues his research on New England and on the Southwest Pacific, and has written reviews and articles for the Journal of Geography and the Professional Geographer.

Rafael Pico (Ph.D. '38) is Secretary of the Treasury for the Commonwealth of Puerto Rico. He served as senior advisor to the U.S. Delegation to the O.A.S. Economic Conference in Buenos Aires in August. He has also been President of the Inter-American Planning Society since December 1956 and advisor to the Honduran government on public administration since November, 1957.

Victor E. Pitkin (A.B. '30, M.A. '31) is Consultant in Citizenship Education for the Connecticut State Department of Education. He has published An Adventure in Educational Television (Connecticut State Department of Education), an account of a T.V. series on Asia, and is working out plans for a workshop on Junior High Schools. His son, Donald, is doing graduate work in animal diseases at the University of Connecticut.

Elaine Potter ('56-'57) is Instructor in Geography, Mount Holyoke College, South Hadley, Mass. She is currently finishing her thesis.

Etha M. Pruser (M.A. '54) is a geography teacher in Butler, New Jersey.

Louis O. Quam (Ph.D. '38) is head of the Geography Branch of the Office of Naval Research. In the course of his work during 1957 he travelled to San Diego and Denver, to the A.A.G. meetings at Cincinnati, to the Gulf coasts of Louisiana and Florida, to Arctic military bases, to Madison, Wisconsin and to Bangkok, Thailand, for the Pacific Science Congress. He also contributed the article on geography for the Book of The Year of the Encyclopedia Britannica.

Capt. L.E. Randall (M.A. '50 and Clara R. Randall ('48-'50). Capt. Randall is Assistant Professor of Air Science at Colby College, Waterville, Maine.

Richard R. Randall (Ph.D. '55) is an analyst in Washington, D.C. His article "The Political Geography of the Klagenfurt Basin" was published in the Geographical Review, in 1957.

When moving please send us your old and new addresses.

Walter W. Ristow (Ph.D. '37) is Assistant Chief of the Map Division of the Library of Congress. He has published an article "Journalistic Cartography" in Surveying and Mapping, Oct-Dec. 1957, and has a chapter in Global Geography (Crowell, 1957).

Edward Risely (A.B. '46) is in Alexandria, Va., with the U.S. Air Force.

M. Catherine Roberts (M.A. '31, Ph.D. '38) is retired, living at 10½ Leroy Street, Potsdam, New York.

Ina Cullom Robertson (M.A. '25) is Head of the Department of Geography at the State Teachers College in Valley City, North Dakota, and President of the National Council for Geographic Education. Last summer she conducted a field trip in Southwestern United States and Cuba.

Mary Alice Roper (M.A. '44) is a teacher at the Cove-Montserrat School, Beverly, Mass.

John Kerr Rose ('31-'32) is Senior Specialist in Natural Resources and Conservation, Legislative Reference Service, Library of Congress and also engaging in private law practise. He has published A Survey of National Policies on Federal Land Ownership (Senate Document #56, 85th Congress, First Session).

Carl W. Ross (Summers '39-41) is a geographer with the Quartermaster Research and Engineering Center, Natick Mass. He enjoyed a motor trip to the Black Hills, South Dakota, in the summer of 1957.

Robert W. Rucker (M.A. '28) is Associate Professor of Geography at Massachusetts State Teachers College,

Bridgewater, Massachusetts.

Edward D. Russell (M.A. '22) is a member of the State Teachers College community at Framingham, Massachusetts.

Frederick S. Sanford ('48-50) is a production planner for Sikorsky Aircraft, Stratford, Connecticut. His son, Gordon, was born June 20, 1953.

Peter T. Sardo (M.A. '52) is teaching in the Allentown, Pa., School District. During the summer of 1957 he served as Assistant Professor of Geography at Clinch Valley College of the University of Virginia.

Anthony Sas (Ph.D. '57) is Assistant Professor of Geography at the University of Maryland. He is continuing his researches on Dutch migration in Canada. He announces the birth of a son, Nicholas Martin, March 14, 1958.

Gerald W. Schultz ('53-54, '56-57) has returned from a year of research on The Urban Places of Turkey under a grant from the National Research Council. He is presently working up the results of his research into a report for the Council and working on his dissertation.

Joseph R. Schwendeman (M.A. '27, Ph.D. '41) is Professor and Head of the Department of Geography at the University of Kentucky, Lexington, where his second son has recently taken his M.A. in geography. Dr. Schwendeman is responsible for publishing that invaluable handbook, the Directory of College Geography in the United States each April. He has also published a text, Kentucky Geography (Harlow), and conducts summer field study each year in Mexico.

Marjorie Shank (M.A. '23) is Associate Professor of Geography at Southern Illinois University at Carbondale.

Dr. Homer L. Shantz, Staff Member from 1922 to 1926, resides at 454 Paseo del Descanso, Santa Barbara, California. Continuing a long research interest in Africa, Dr. Shantz worked in that continent from August, 1956 to April, 1957 under the auspices of the University of Arizona Department of Botany and the Geography Branch, Office of Naval Research. His study will include a photographic comparison of vegetation in 1956-57 with that of 1919-20. Mrs. Shantz died in August of 1954.

Earl B. Shaw (Ph.D. '33) is Professor of Geography at the State Teachers College in Worcester, Mass. He continues his research in economic and human geography, and plans to travel in the summer of 1958 as he did in the summer of 1957.

James A. Shea (Ph.D. '52) is Associate Professor of Geography at the University of Kentucky. He has returned from a year in Antarctica where he was scientific leader of the Cape Hallet I.G.Y. Base.

Julia M. Shipman (M.A. '23, Ph.D. '28) is retired, but active as President of the local public library board and cataloguing the Russell Vermontiana collection. She also is doing research in local flora, and with others has located most of the ferns believed native to Vermont.

Paul A. Siple (Ph.D. '39) served as civilian leader for the Amundsen-Scott I.G.Y. base at the South Pole. He has returned to the Office of the Chief of Research and Development, Department of the Army, and has since been lecturing and receiving many awards and honors.

Helen L. Smith ('48-49) is Associate Professor of Geography at Wheaton College, Wheaton, Illinois.

Robert W. Spayne ('55-56) is Instructor of Geography, Massachusetts State Teachers College at Boston. In his three man department, all are Clark men.

Raymond E. Specht (M.A. '47) is Associate Professor of Geography at Wisconsin State College at Stevens Point. Last year he was on leave of absence to work toward the doctorate at Northwestern and plans to continue there this summer session. He has completed studies on the changing structure of a village on the Chicago urbanized fringe, "A Guide for the Future of Worth" and one on the taconite industry in the Lake Superior District. The latter study is to appear as an article co-authored with Clyde F. Kohn of Northwestern.

Karl Stacey (Ph.D. '55) is Associate Professor of Geography at Kansas State College, Manhattan, Kansas. He has returned from a year of Fulbright lecturing in Japan, visiting all Japanese islands during his stay.

Myron Starbird ('54 and summers) is teaching geography at the Farmington, Maine State Teachers College. He reports the birth of a son, January 29, 1957.

Mrs. Hazel L. Stickney (M.A. '48) is Assistant Professor of Geography at the State Teachers College, Livingston, Alabama. Three children, Robert Jr., Walter and Hazel Jr., also keep her busy.

Robert G. Stone ('31-32) is Chief, Technical Information and Publications Division, Headquarters of the Air Weather Service, United States Air Force. He has written a Compendium on Cirrus and Cirrus

Forecasting, Air Weather Service, 1957.

Alfred R. Sumner (Ph.D. '49) is Associate Professor of Geography at the San Francisco State College. In the summer of 1957 he conducted a Round-the-World trip via Australia, New Zealand, and Africa and this fall led an aerial tour of California for college students. He plans a tour of northern South America in the Summer of 1958.

John L. Taylor (M.A. '40, Ph.D. '53) is consultant on Territorial Affairs to the U.S. House of Representatives Committee on Interior and Insular Affairs. During 1957 he traveled in the course of congressional hearings to the Virgin Islands, Puerto Rico, and Indian reservations in five states. Naval reserve duty took him to Florida, Cuba, and on the U.S.S. Saratoga which visited Scotland, England, Ireland, and France and participated in N.A.T.O. maneuvers. He announces a second son and fifth child, James Walter, born October 12th, 1957.

R. Paul Terrell (Ph.D. '49) is Professor of Geography and Head of the Department of Geography and Geology at Western State College, Bowling Green, Kentucky. In September a new half-time staff member was added to the three composing the department. Dr. Terrell has in preparation a geography of Kentucky.

Ray W. Tobey (M.A. '53) is retired, living at Pine Cone Farm in Fairfield Maine, and doing some of the things he always wanted to do, and never had time for, when he was teaching.

Grady O. Tucker, Jr. (Ph.D. '57) is now employed by Economic Development Associates, Planning Consultants in the Boston area. He recently left a position with the Massachusetts Department of Commerce as Assistant

Planning Engineer.

Mazie O. Tyson (Summers '43-47) is Associate Professor of Geography at Tennessee A. and I. State College, Nashville. She has taught under a Ford Foundation-Hampton Institute program for teacher improvement in the Virgin Islands. She is presently reading German to qualify for candidacy for the doctorate at Syracuse University.

James E. Vance, Jr. (Ph.D. '52) and Jean Laing Vance (Ph.D. '58) have moved to the Department of Geography at the University of Nebraska. Dr. Vance plans to teach this summer at the University of California at Berkeley.

Eugene Van Cleef (Ph.D. '26) is Professor Emeritus of Geography at The Ohio State University, having retired in June, 1957. He was recently elected an honorary member of the Export-Import Club of Columbus. Dr. Van Cleef continues to keep busy with a miscellany of writing, proof-reading and editing.

William Van Royen (Ph.D.) is Professor and Head of the Department of Geography at the University of Maryland. Last summer was spent in Europe, visiting colleagues in Scotland, England, Belgium, and The Netherlands. Dr. Van Royen also made an auto trip through the South of France, studying prehistoric sites in the Dordogne, landforms in the Pyrenees and those in the Cevennes and Causses regions. He continues his research for the Atlas of World Resources, Vol. 3, and hopes to begin work on a new book.

Paul P. Vouras (M.A. '51) is Assistant Professor of Geography at the State Teachers College at Paterson, New Jersey.

Lillian H. Wallace (M.A. '41) is

Associate Professor of Geography at the State Teachers College in Westfield, Massachusetts. Last summer she traveled to the West Coast.

Miles W. Weaver (M.A. '51) is Redevelopment Director, the Slum Clearance and Redevelopment Authority, Portland, Maine. He announces the birth of a second child, Elizabeth, October 24, 1957.

Seymour West (M.A. '41) is an administrator for the United States Government in the District of Columbia.

Katheryne Thomas Whittemore (M.A. '25, Ph.D. '36) is Professor of Geography and Director of the Division of Arts and Sciences of the College for Teachers at Buffalo, New York. The Division of Arts and Sciences, including eight departments, is a new division in the college organization. Dr. Whittemore spent 1956-57 on sabbatical leave, completing a new fifth grade text, The United States and Canada (Ginn, 1957) and making a trip to the Belgian Congo.

Bernt Lloyd Wills ('42-43) is Professor and Head, Department of Geography, the University of North Dakota at Grand Forks.

Lewis J. Winter ('52-54) is Principal Planner, the Rhode Island Development Council. He announces the birth of a daughter, Cheryl Ann, March 29, 1957.

A. Joseph Wraight (Ph.D. '51) is Geographer, United States Coast and Geodetic Survey. He is the author of The U.S. Coast and Geodetic Survey, 150 Years of History (Gov't Printing Office, 1957) and Urbiculture, Preview and Prospect (Univ. Press, 1957). He is currently doing work on

city surveys in conjunction with a project of the National Institute of Urbiculture.

Marion I. Wright (M.A. '46) is Associate Professor of Geography, Rhode Island College of Education in Providence. Last year she was on leave to attend Syracuse University, and has a dissertation under way on some aspects of the rural-urban fringe in the Providence Metropolitan area. She looks forward also to moving to a new campus in the Fall.

#### ALUMNI ACTIVITIES INTERNATIONAL

Hans H. Boesch ('34-35) is Professor and Chairman of the Department of Geography at the University of Zurich and Secretary-Treasurer of the International Geographical Union. Dr. Boesch has recently published a book, U.S.A. - Die Erschliessung eines Kontinentes (Bern, Kummerly und Frey) and "Karte der Weltwirtschaft" (Bern, K. und F.), with the text appearing in Geographica Helvetica, No. 4, 1957.

Roger J.E. Brown ('56-57) is currently a research student at the Scott Polar Research Institute in Cambridge, England and trying to write his dissertation for Clark. He plans to return to the National Research Council in Ottawa in September. He has published "Breakup on the Mackenzie River, 1954" in the Journal of Glaciology, October, 1957.

Terry Burke ('54-55) is Education Officer, Royal Air Force, at Ballykelly, Northern Ireland. He is also working on his dissertation for the University of Birmingham.

Robert D. Campbell (Ph.D. '49) is on leave from his duties as Professor of Geography at The George Washington University for a year as Fulbright Lecturer in Geography at

the University of Peshawar in Pakistan. He has written three sections of the Final Report, Historical Records Project (September, 1957) published by the School of Engineering at George Washington University, and an article, "Concept of a Logistics System", with F.D. Dorey and Richard B. Murphy in the Naval Research Logistics Quarterly, June, 1957.

George B. Cressey (Ph.D. '31) is on leave from his duties as Maxwell Professor of Geography at Syracuse University to teach and do research on Southwest Asia at the University of Beirut under a Smith-Mundt Act appointment. Dr. Cressey is working toward the completion of a book on Southwest Asia and some journal studies. He has recently published "Water in the Desert" in the Annals, "Quanats, Karez, and Foggara" in the Geographical Review, and "Regime of the Shatt-al-Arab" in the Middle East Journal.

Robert A. Davis ('50, '51-52) is Geography Master at the Hillfield School, Hamilton, Ont. He is presently active in completing his dissertation.

J. Keith Fraser ('55-56) is Head, Northern Canada Research Section, Geographical Branch, Department of Mines and Technical Surveys, Ottawa. He has written several articles within the past year, "Freeze-Thaw Frequencies and Mechanical Weathering in Canada", "Tracing Ross Across Boothia", and "Notes on the Glaciation of King William Island and Adelaide Peninsula, Northwest Territories". Mr. Fraser plans field travel this summer in the western Arctic.

M. Hassan Ganji (Ph.D. '54) is Assistant Professor of Geography at

Teheran University and Director General of the Iranian Meteorological Department. He has prepared 3,000 entries for the Persian Encyclopedia, revised several elementary school texts and prepared an elementary textbook for the schools of Iran. He is active in research in climate in connection with the 1958 UNESCO Arid Zone Symposium in Iran, and attended the World Meteorological Organization Meetings in New Delhi in January.

Alan Harris ('51-52) is Lecturer in Geography at the University of Hull, Yorkshire. He spent part of the last summer in Germany with Wilhelm Matzat gathering information for a piece of joint work on the Aachen coalfields. He continues his work on an agricultural geography of the East Riding, 1689-1866.

Esther Kinch Hunter (M.A. '40) is spending a year in the Netherlands while her husband does basic research at the Phillips Laboratories in Bindhoven. The family is seeing as much of Europe as possible and spent the Christmas holidays sightseeing in Italy.

M. Halim Khan (Ph.D. '58) is Lecturer in the Department of Education at the Muslim University, Aligarh, India. He has published the articles, "Reorganization of the States of India" in the Aligarh University Magazine, "Geography through Field Camp" in the Geographer Aligarh, and is currently working on problems in connection with the international boundaries of India.

Mrs. Mildred Kohomban Wickrema (M.A. '56) is a teacher in the Government Secondary School in Singapore, and is currently doing research on the Economic Development

of Ceylon.

Mrs. Irene J. Marsingill-Thomas ('26-27) has been active in local government work in Northwood, England since 1948, and is currently a Justice of the Peace.

Maria Beatriz Maso ('53-55) is Professor of Economic Geography in the Faculty of Economics, Villanova University, Habana, Cuba and Technical Secretary, the Symposium of Natural Resources of Cuba. In the summer of 1957 she studied at the University of Colorado, taking courses in physical geology and minerals and rocks.

Willi Matzat ('51-52) reports a new address, Frankfurt am Main, Germany, Martin Luther Strasse 32.

Per Olaf Nordell ('55-56) is assistant at the Geographical Institute of the University of Uppsala. He spent last summer in the Scandinavian Arctic, investigating the course of deglaciation in the Sarek-Sulitema district.

Dr. Angelika Sievers (M.A. '36) is Professor of Geography at the State Teachers College (Paedagogisch Hochschule) in Vechta, Oldenburg, Germany. She will continue her research work from July to December, 1958 in Ceylon and South India, particularly the anthropogeographical problems of Ceylon.

Victor W. Sim (M.A. '57) is on leave from the Department of Mines and Technical Surveys to attend McGill University for Ph.D. residence. In the summer of 1957 he was on the Melvill Peninsula, Northwest Territories, carrying out a regional study of the physical geography of the area. In the summer of 1958 Vic will return to the eastern Arctic to extend his pre-

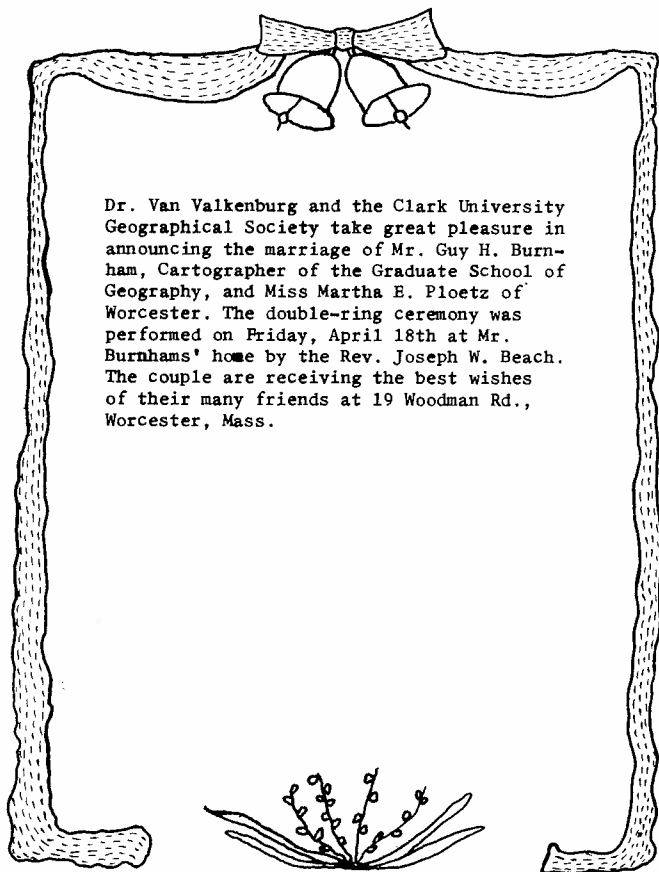

vious studies.

Wouter Van De Bunt ('51-52) is Planning Economist with KLM Royal Dutch Airlines in The Hague. He announces the birth of his first child, Dirk Wouter, 8lbs., on June 30, 1957. He paid a short visit to the Clark campus in October and also entertained Dr. and Mrs. Van on their way to Zurich that some month at home.

---

When moving please send us your old and new addresses.

# WEDDING BELLS

Dr. Van Valkenburg and the Clark University Geographical Society take great pleasure in announcing the marriage of Mr. Guy H. Burnham, Cartographer of the Graduate School of Geography, and Miss Martha E. Ploetz of Worcester. The double-ring ceremony was performed on Friday, April 18th at Mr. Burnhams' home by the Rev. Joseph W. Beach. The couple are receiving the best wishes of their many friends at 19 Woodman Rd., Worcester, Mass.

## Personal News

Congratulations to Mr. and Mrs. Robert E. Lingner on the birth of their second son, Richard Earle, on April 17. Bob is instructing in geology as well as taking graduate courses.

Best wishes to Woodford Garrigus (M.A. 1955) and Donna M. Logue, A.B. 1957 upon their March wedding. Woddy is putting the finishing touches on his dissertation, and will receive his doctorate in June.

The stork will call upon another of Dr. Van's secretaries, Elizabeth (Dodd) Alcorn. The anticipated day is at the end of May.

Mary (Moore) O'Malley is once again working as Dr. Van's secretary. She is back permanently. Mary is the mother of two lovely daughters Susan and Mary.

Patricia R. Sinnott will be married to Clifford J. Murphy (no relation to Dr. Murphy) May 31, at St. Peters Church. Best wishes to them both.

Congratulations to the Editor for bringing the MONADNOCK through the year without any outstanding debts.

"The very best kind of education is obtained from doing things oneself, under competent direction and good guidance".

Charles W. Eliot
