

CHALLENGE CONVENTION.  
CHANGE OUR WORLD.

**TRANSFER ARTICULATION AGREEMENT  
QUINSIGAMOND COMMUNITY COLLEGE**

**And**

**CLARK UNIVERSITY SCHOOL OF PROFESSIONAL STUDIES UNDERGRADUATE PROGRAMS**

**Associate in Arts in General Studies - Biotechnology Option**

**To**

**Bachelor of Science Degree in Biotechnology**

This Transfer Articulation Agreement (“Agreement”) is made and entered into by and between CLARK UNIVERSITY SCHOOL OF PROFESSIONAL STUDIES UNDERGRADUATE PROGRAMS (SPS UG) at 950 Main Street in Worcester, Massachusetts and QUINSIGAMOND COMMUNITY COLLEGE (QCC) at 670 West Boylston Street, Worcester, Massachusetts.

This Agreement builds upon the institutions’ long-time working relationship and commitment to provide education opportunities for the Worcester area.

This Agreement establishes the terms and conditions under which QCC students who complete the **Associate in Arts in General Studies - Biotechnology Option** program may transfer to SPS UG’s **Bachelor of Science in Biotechnology** program with an additional opportunity to pursue a graduate certificate/degree at the School of Professional Studies.

See Appendix A for the Transfer Table and Appendix B for the Bachelor of Science in Biotechnology curriculum.

**Terms of Agreement**

Clark University and QCC hereby agree as follows:

1. Clark University School of Professional Studies Undergraduate Programs (SPS UG) agrees to accept graduates of QCC **Associate in Arts in General Studies - Biotechnology Option** program to SPS UG’s **Bachelor of Science in Biotechnology** program provided that eligible students graduate with a minimum cumulative Grade Point Average (GPA) of 2.5 on a 4.0 scale.
2. Eligible students must complete an online application for admission to Clark SPS UG. Students must meet all program-specific admissions requirements to gain admission. Students are encouraged to submit their completed application six weeks prior to the intended term start. The application fee will be waived for program participants.

3. Clark University School of Professional Studies Undergraduate Programs retains the right to make the final decision on each student's application and reserves the right to rescind an offer of acceptance if student is no longer considered in good academic standing or disciplinary sanctions occur between the time of acceptance and matriculation.
4. Eligible students will receive transfer credit for college-level courses completed at QCC with a grade of "C" or better. A status of incomplete ("I") or Pass ("P") will not be considered for transfer. For intended science and technology majors, science and technology courses completed more than seven years prior to the application date may be considered for transfer at SPS UG's discretion.
5. QCC graduates who complete a SPS UG baccalaureate degree with a minimum overall GPA of 3.0 on a 4.0 scale as part of this Agreement are eligible for general admission into a SPS graduate program. Specific graduate programs may require additional admissions criteria with specified application timelines. The application fee will be waived for program participants. Such graduates may qualify for scholarships to pursue their graduate studies.
6. Clark University SPS UG and QCC agree to endeavor to make this effort a success by providing information and advising to students on this Agreement and designating a contact person for all student inquiries and administrative issues.
7. QCC graduates who transfer to a SPS UG program as part of this Agreement will receive a Community College Transfer Scholarship upon acceptance. No additional application is required. Students may also be eligible for other scholarships.
8. This Agreement becomes effective on the date of signature and continues in effect until either party provides written request to terminate the relationship.
9. This Agreement may be terminated or re-negotiated at the request of either institution while giving due protection to those students enrolled at either institution who expect to pursue this plan of study. Either institution may request the termination or change, with or without cause, by giving the other party written notice at least 90 days prior to the effective date of such termination or change. In the event that the said agreement is not terminated, it will automatically be extended. Substantive changes in courses or programs of either institution will necessitate a review of the agreement.
10. This Agreement does not preclude either institution from entering into agreements with others.

### Appendix A: Transfer Table

#### QCC Associate in Arts in General Studies – Biotechnology Option: SPS UG Bachelor of Science in Biotechnology

QCC Course			Clark SPS UG Transfer Equivalent		
Course Title	Course #	Credits	Course Title	Course #	Units
<b>Semester 1</b>					
Principles of Biology I	BIO 107	4	Introduction to Biology I	BIOL 1010	1

<b>Total Credits Required</b>		<b>60</b>	<b>Total Transfer Units to</b>		<b>13.5</b>

1 SPS unit = 4 semester credits; 3 semester credits = 0.75 SPS units

**Appendix B: Remaining Requirements Post-Transfer  
SPS UG BS Biotechnology Curriculum**

**BS degree completion requirements:**

- completion of courses as specified in curriculum
- minimum of 32 units (128 semester credits)
  - Minimum 16 units of which are completed at Clark University
  - minimum 2.000 cumulative grade point average (gpa); Transfer credits are not used in calculating gpa at Clark University

<b>General Education</b>		<b>Unit</b>	<b>Transfer from QCC</b>		<b>Unit</b>	<b>Note</b>
ENG 1000	Introduction to Composition	1	Composition I	ENG 101	0.75	
ENG 1105	Intermediate Composition	1	Composition II	ENG 102	0.75

**Total Transfer Units 13.5\***

**Total Remaining Units 19**

\* Clark University allows a maximum of 16 units in transfer. Due to credit conversion and bachelor's degree requirements, QCC students completing the General Studies-Biotechnology program will be awarded 13.5 units toward the BS degree. QCC students are recommended to take the following two courses outside of the GS-Biotechnology program to maximize transfer credits towards bachelor's degree requirements: CHM 201 Organic Chemistry I and PHY 101 Physics I.
